AAROSHMI B S

B.E. COMPUTER SCIENCE & ENGINEERING | SOFTWARE DEVELOPMENT
7994746300 | aaroshmibs@gmail.com | linkedin.com/in/aaroshmi-b-s

PROFESSIONAL SUMMARY

Third-year Computer Science Engineering student with hands-on experience in Python, Django, database-backed applications, and foundational AI/ML. Developed project experience through an internship and collaborative hackathons, including a Vehicle Parking Management System and a text-classification application. Interested in software engineering, backend development, and building reliable, user-focused software.

EDUCATION

B.E. Computer Science and Engineering | 2024–2028
St. Xavier's Catholic College of Engineering
Higher Secondary Education — Kendriya Vidyalaya (CBSE) | 2022–2024
Primary & Secondary Education — Adarsh Vidya Kendra (CBSE) | 2011–2022

EXPERIENCE

Intern | CapeStart Pvt. Ltd. | 2026

- Learned and applied Python and Django through project-based development.
- Worked on a Vehicle Parking Management System involving application logic, database integration, and CRUD operations.
- Explored an AI/ML text-classification workflow, including text preprocessing, feature extraction, model training, and evaluation.
- Learned to integrate machine-learning functionality into a Django application.

Intern | AK Infopark

- Worked on frontend-focused web projects using HTML, CSS, JavaScript, and Bootstrap.

PROJECTS

Vehicle Parking Management System | Python, Django, SQLite, HTML/CSS, Bootstrap
Developed internship project functionality for managing parking-related records, with database integration and CRUD operations.

Text Classification System | Python, Scikit-learn, Pandas, NumPy, Django
Explored a machine-learning pipeline covering text preprocessing, feature extraction, model training/evaluation, and integration into a Django application.

CampusMate AI | Hackathon Project | Python, Django
Collaborated on an AI-based campus assistant concept intended to make campus information and services easier to access.

SIGNBRIDGE | Accessibility Project | Accessibility-focused technology concept
Contributed to a team concept focused on reducing communication barriers through Indian Sign Language-oriented public-service access and text/visual communication.

TECHNICAL SKILLS

Programming: Python, Java, C
Web Development: Django, HTML, CSS, JavaScript, Bootstrap
Databases & APIs: SQLite, MySQL (basic), CRUD operations, REST API fundamentals
AI/ML: Text preprocessing, feature extraction, classification, model training and evaluation; Scikit-learn, Pandas, NumPy
Tools & Core Concepts: Git, GitHub, Object-Oriented Programming, Data Structures (basic)

SOFT SKILLS

Problem-solving • Team collaboration • Communication • Time management • Adaptability and quick learning

ACHIEVEMENTS

- Campus Arena 2026 (Karka Infini AI) — Secured First Prize in the Paper Presentation event.
- CodeSprint'26 — Secured 5th prize with CampusMate AI.
- Future 6.0 – SRTN National Finale 2026 — Reached the national-level finale with SIGNBRIDGE.
- Smart India Hackathon — Shortlisted in the internal round.
- CapExtreme — Participated in a 24-hour hackathon; the previous resume records a six-month internship opportunity at CapeStart.

ACTIVITIES

- NSS Volunteer — Served as a National Service Scheme volunteer for 2 years.
- Drone Club — Currently an active participant.
- Computer Society of India (CSI) Club — Currently participating and serving as a club representative.
